### Snow forecast

**Updated: 9.30pm Monday 14 April 2014**

The weather is settled in the western Alps – though it will turn noticeably colder than of late, with a brisk north-north-east wind at altitude. The eastern Alps will continue to see more cloud – at least until Wednesday – with some showers and a little snow in places. The snow will be mostly confined to the northern Austrian Alps, where it will fall to relatively low altitudes.

---

#### Detailed forecast:

##### Austria

**Tuesday** will be mostly cloudy with showers in the northern Austrian Alps. The rain/snow limit will be between 800 and 1200m. The southern Austrian Alps will see more in the way of sunshine and only isolated showers.

**Wednesday** will see further showers for a time across the northern and particularly north-eastern Alps (snow above 800-1000m). Other areas will be mostly dry with sunny spells.

**Thursday** will be dry with plenty of sunshine across all regions. Temperatures will also begin to rise again although remaining relatively cool for the time of year.

---

##### France

**Tuesday** will be mostly sunny but much cooler than of late, with a strong wind at altitude. There will be little change on **Wednesday** and **Thursday** with lots more sunshine and relatively cool temperatures (though it will feel warm in any sunshine out of the wind).

Mostly sunny in the western Alps this week. This is the Dents du Midi viewed from Les Crosets - Photo: weathertoski.co.uk

---

##### Italy

Some parts of the eastern Italian Alps close to the Italian border may see some cloud at times tomorrow (**Tuesday**) otherwise most regions will be sunny, though cooler than of late. **Wednesday** and **Thursday** will remain mostly sunny and relatively cool for the time of year.

---

**Tuesday** will see a few light showers (snow 1200m) in the far eastern Swiss Alps otherwise most areas will be dry with plenty of sunshine. It will be cooler than of late, however, with a brisk wind at altitude. **Wednesday** and **Thursday** will continue mostly sunny and (relatively) cool.

#### Outlook:

Cloud amounts will increase later in the week with a few showers in places. However, many places will remain dry with bright or sunny spells.

**Next detailed snow forecast will be on Friday 18 April 2014, but see [Today in the Alps](#) for daily updates**
